

## Meet our Partners

Barco is a world leader in professional markets, in which it offers display and visualization solutions. The company designs and develops solutions for large-screen visualization, display solutions for life-critical applications, medical imaging, simulation, and systems for process control. York Telecom and Barco are partners in the development of collaborative Operating Room environments.

LiveData technology brings together data from any number of sources and presents it as meaningful information on easy-to-read graphic displays. Leading medical institutions have selected LiveData OR-Dashboard™ to enhance patient safety, improve team communication and streamline perioperative workflow. York Telecom and LiveData have taken a leadership role in creating Visually-Integrated Operating Room systems.

Verizon Business focuses on telephony-related technologies, such as DSL, VoIP, IT Solutions, and Wireless networks, and also offers you a wide array of conferencing solutions, ranging from videoconferencing to data collaboration and room scheduling. For these services, Verizon Business looks to York Telecom to provide integrated videoconferencing solutions.

Polycom is the only company today delivering end-to-end rich media collaborative applications for voice, video, data and the web from desktop and mobile personal systems to room systems to the network core. Working together, York Telecom and Polycom can offer you a tremendous range of communications solutions for your company.

York Telecom is proud to be a Tandberg Platinum Partner. This enables us to offer you comprehensive service and support packages that will keep your visual communications systems operating at their highest level. It gives you peace of mind, because we meet Tandberg's rigorous requirements for service readiness, competency and capacity for deploying Tandberg technology.
