

York Telecom Recognized for Diversity Award

Ranked 47th among Nation's Top 100 Asian American Businesses

EATONTOWN, NJ January 8, 2008— York Telecom is proud to announce that it has been named one of the “Top 100 Asian American businesses in the United States”. Called the Div100, the award is presented by DiversityBusiness, the nation’s leading multicultural business organization, in recognition of York Telecom’s success as a multicultural business.

The Div100 is the 8th annual listing of the Nation’s top 100 Asian American-owned businesses. The companies listed on the Div100 represent the Nation’s top multicultural earners and challenge the long-held notion that a diversity-owned business is small or insignificant. Div100 members are sought after by major corporations wishing to increase spending with diversity owned companies.

The Impact of Diversity Business

“Diversity businesses and consumers are a growing force in the U.S. economy, and a force to be reckoned with,” said Kenton Clarke, CEO of Computer Consulting Associates International, the company that built DiversityBusiness.com. This is a whole business segment that can carry its own, that provides jobs, products and services, and generates wealth for their communities. These are the new leaders in American business.”

Affected by recent economic and demographic trends and changes, Fortune 1000 corporations throughout the country have recognized that buying products and services from diversity owned companies positively impacts their business. Diversity-owned businesses contribute over \$1.4 trillion in sales to the U.S. economy.

Ron Gaboury, President of York Telecom, commented “The Div100 closely matches the organizational spirit that drives our business in the U.S. and around the world. York Telecom is proud of our success as a diversity business, and we find that our expertise is valuable in understanding how to address the needs of our global customers.”

About the Div100

The Div100 is a classification that represents the top 100 Asian American-owned businesses in the U.S., in sectors such as technology, manufacturing, food service and professional services. Large organizational buyers throughout the country that do business with multicultural and women-owned businesses use the list. The Div100 is produced annually by DiversityBusiness.com, the nation's leading multicultural B2B Internet portal that links large organizational buyers to multicultural product and service suppliers.
